Mam Benita and Nelsie,

Sorry for the late reply. Just came back from our Holy Week vacation. First of all, on behalf of the UP CHK headed by our new Dean, Prof Francis Carlos Diaz and also through former Dean, Prof. Ronualdo Dizer, I would like to take this opportunity to thank you for your support to our student-athletes. We will send you a formal report on how the amount will be spent for their food subsidy. The money is still intact and we might spend it for the coming midyear classes where the University doesn't give food subsidy for our student-athletes subject to the approval of our Dean since the money is deposited in our account. Again, our sincere appreciation to UPAAA. We will also update you on the result of this year's UAAP Season 81.

Truly yours,

Prof. Oscar Yoshihiro S. Santelices
Chairman, UP Diliman Varsity Sport Office

Dear Gary:

Thank you so much for taking care of the funding remittance for the food subsidy of UP CHK's student-athletes. We should be getting a confirmation receipt from either Prof. Santelices or Prof. Dizer.

Best Regards

Benita

Dear Prof. Santelices:

We hope this letters finds you well. Thank you for sending us your project proposal for requesting food subsidy for the University of the Philippines, College of Human Kinetics' (CHK) student-athletes. We read the proposal, and we are delighted to grant CHK the \$2000 earmarked by UPAAA for this special project. We will officially request Ms. Nelsie Parrado (President of UPAAA) to release the funds for this project, and for Mr. Gary Camacho (Treasurer of the UPAAA) to transmit the money to the U.P. College of Human Kinetics Foundation. We will provide both Ms. Parrado and Mr. Camacho with the information on banking transactions that you gave us.

We appreciate all that you do to benefit our students, particularly our student-athletes who very much need food subsidy. May we request an update and assessment of the project, and (perhaps) some testimonials from our student-athletes--on how participation in sports (possibly) enhance their college experience and personal development. We will then share your progress report and final assessment with the UPAAA body--that will reach many U.P. alumni across U.S. and beyond.

Again, thank you for patience and for working with us on this project, and please keep in touch. Best regards to you, Dean Diaz, Prof. Dizer, and all faculty members, staff, and students of the College of Human Kinetics. Hopefully, we could drop by the College and visit with some of you in the near future.

Sincerely,

UPAAA Project Committee: Food Subsidy for the University of the Philippines CHK's Student-Athletes

**PROJECT PROPOSAL FOR FOOD SUBSIDY OF
THE UNIVERSITY OF THE PHILIPPINES
STUDENT-ATHLETES**

**Ensuring Food Security Among Student-
Athletes of University of the
Philippines of Diliman**

- I. Name/title of the project: **Ensuring Food Security
Among Student-Athletes of University of
the Philippines of Diliman**

- II. Name of project committee members:
Chairman: **Prof. FRANCIS CARLOS DIAZ**
Members: **Prof. OSCAR YOSHIHIRO S. SANTELICES**
Prof. RONUALDO DIZER

- III. Institution: **College of Human Kinetics, University of
the Philippines, Diliman, Quezon City**

Executive Summary

The aim of this project proposal is to request for assistance from the U.P. Alumni Association for food subsidy for our U.P. Student-athletes. Specifically, it also aims to:

1. Augment food subsidy for our student-athletes every weekends (Saturdays and Sundays) since currently, the food subsidy allocated for them is only during weekdays (Mondays-Fridays).
2. Provide the right nutritional food for our student-athletes in order to enhance their athletic performance.

In order to achieve these objectives, the Project Proposal seeks to solicit resources from UP Alumni based on the different States in the U.S. This Project Proposal will also provide regular information and updates of our student-athletes to our U.P. Alumni with regards to their performance in the UAAP and other significant events where they will be competing.

The process in requesting for funding can be coursed through the U.P. College of Human Kinetics Foundation, Inc. The U.P. Diliman Varsity Sport Office, with the approval of the CHK Dean will be responsible in the management of funds to be disbursed and financial statement will be submitted to the UPAAA at the end of each semester.

The benefits of this Project is that our student-athletes especially those who are in the lower family income bracket won't have to worry about feeding them since this has been one of the major concerns that needs to be addressed and the University can only offer so much so this would motivate our student-athletes to enhance their athletic performance in the UAAP and other major event, both national and even international.

Goal and Objectives

The purpose of this Project Proposal is to request financial assistance to ensure food security among student-athletes of the University of the Philippines, Diliman, Quezon City. Specifically, it aims to:

1. Augment food subsidy for our student-athletes every weekends (Saturdays and Sundays) since currently, the food subsidy allocated for them is only during weekdays (Mondays-Fridays).
2. Provide the right nutritional food for our student-athletes in order to enhance their athletic performance.

The benefits of this Project is that our student-athletes especially those who are in the lower family income bracket won't have to worry about feeding them since this has been one of the major concerns that needs to be addressed and the University can only offer so much so this would motivate our student-athletes to enhance their athletic performance in the UAAP and other major event, both national and even international. The need to request for financial assistance is urgent since the University can only allot a portion for food subsidy, which can only be availed during weekdays, since the food that are served to them comes from the University Food Service, which can only cater food from Mondays to Fridays only and not on weekends. Currently, the University feeds 174 student-athletes this semester but had to be trimmed down to 152 starting this April due to budgetary constraints. The food subsidy for student-athletes started in 2014 with around 50 recipients of this project. So in essence, the need for additional assistance for their food subsidy is of prime importance in order to help our student-athletes perform at their highest level.

Method/Design

The process in requesting for allocation for funding from the UPAAA can be coursed through the U.P. College of Human Kinetics Foundation, Inc. The U.P. Diliman Varsity Sport Office, with the approval of the CHK Dean will be responsible in the management of funds to be disbursed and financial statement will be submitted to the UPAAA at the end of each semester. The funds requested can be deposited in this account:

1. Name of the Bank: Philippine National Bank
2. University of the Philippines Branch, Diliman, Quezon City, Philippines 1101
3. Name of the Account: U.P. College of Human Kinetics Foundation
4. Name of the Registered person on the Account: According to the Bank, there is no registered person but the signatories are:
 - a. Ronualdo Dizer
 - b. Oscar Yoshihiro S. Santelices
 - c. Ariel Primo Juliano and;
 - d. Mynette Aguilar
5. Account Number: 108610078317
6. Swift Code: PNBMPHMM

The allocation of funds to be spent will be determined through criteria to be determined by the U.P. Diliman Varsity Sport Office. This will be based primarily from the Socialized Tuition System, where each student bracket will be determined based on the annual income of the family. Those whose income brackets are low will be the first to be prioritized for availing the food subsidy. This will also depend on the funds that will be raised by the UPAAA. The food subsidy will be given on a per semester basis.

Evaluation/Assessment

An Evaluation/Assessment Report will be submitted once the Project has been implemented after each semester of the academic year (1st semester: August-December, 2nd semester: January-May, Midyear (June-July). For now, the initial \$ 1,000 which was deposited in the U.P. College of Human Kinetics Foundation, Inc is still intact since the funds that our U.P. Diliman Chancellor Michael Tan allocated for food subsidy has yet to be depleted by early part of April so additional funding is imminent.

Final Report

The Final Report will be submitted once the project has been implemented.

Additional Information

Name of Department/Institution: **U.P. Diliman Varsity Sport Office, College of Human Kinetics, University of the Philippines, Diliman, Quezon City**

Varsity Sports Program: **29 sports events (M and W) and 3 performing groups**

Sports:
